Dear colleagues and friends, associates and distinguished guests,

It is our great honor and pleasure to welcome you in Croatia, for "CSP 1st Annual Congress with International Participation" to be held in Donja Stubica, from November 23rd to 24th, 2018 in Hotel Terme Jezerčica. Congress Workshops and Hands-on Sessions will be held on November 24th, 2018 at the General Hospital Zabok and Hospital of Croatian Veterans, where CSP was established in 2017.

As it is known, Zabok is a picturesque little town with the long historic tradition of art and culture, but entrepreneurship, crafts and modern industry as well. Zabok is also one of the top tourist destinations in NW Croatia, placed in the center of the Krapina-Zagorje County, only 37 kilometers NW from the Croatian capital town Zagreb and well connected with the modern highway and railway. During the Congress we will discuss all aspects of the wide and exciting field of pelviperineology, placing a special emphasis on novel medical technology and techniques of the pelvic surgery, conservative therapy, prevention and rehabilitation.

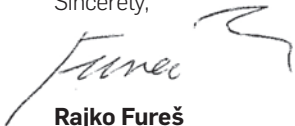

The Congress is really unique occasion to learn and to share innovative and best practice, ideas and experiences with colleagues from the all sides of Croatia, including our dear guests from the neighbouring countries. Wherever you work, take this opportunity to break away from your daily routine, in order to discover new approaches and to get acquainted with the lessons learned. But most of all, to network and return home

with new knowledge, insight, ideas and newly motivate to your work and colleagues. We are looking forward to invite not only gynecologists, urologists and coloproctologists, but also other important specialists, e.g. oncologists, neurologists, radiologists, general practitioners, physiotherapists, midwives, nurses, etc. from the various Croatian medical institutions in order to promote modern pelviperineology and its benefits. There will be a significant place oriented towards real medical practitioners, whose own professional experience on interesting cases and complications management will be presented.

At last, Hrvatsko Zagorje, as one of the most beautiful continental parts of Croatia, offers a friendly and welcoming atmosphere within its extraordinary historic landmarks and rich culture. Exciting social events and excursions will be offered since Zagorje is the especially charming at this wonderful winter season.

Taking this chance, we thank you for participation in the Congress that will never be a success without your participation. Finally, please accept our best regards and wishes!

Sincerely,

Rajko Fureš

CSP President

Damir Hodžić

CSP Vice President
